DETAILED ACTION

Election/Restrictions

Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 5,12,17-22, 28 and 29 directed to the species of figures 2,4,5-7B,8A,8B,9,10,11A,11B,12A-12C,13A AND 13B are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

Claims 1,2 and 4-32 are allowed.

The following is an examiner's statement of reasons for allowance: In the Office Action mailed 8/22/2005, claim 3 was objected to as dependent on a rejected claim but indicated as having allowable subject matter and allowable if rewritten in independent form. The claim 3 limitation that states "wherein the housing has a height, and wherein a ratio of the height to the pitch of the LEDs is between approximately 0.3 to 1.2" has been added by the amendment filed 12/20/2005 to the limitations of independent claims 1 and 31. The amended combination of limitations is not disclosed, suggested or taught in the art of record. Claims 2, and 4-30 depend from claim 1 and are allowable for the same reasons. Claim 32 depends from claim 31 and is allowable for the same reason.
